EDUCATION

College of Engineering, Guindy (CEG, Anna University)

Bachelor of Technology (B.Tech) — Information Technology

Chennai, India

2024 – 2028

- Cumulative GPA:** 8.76 / 10.0
- Higher Secondary Education (HSE):** 96%
- Secondary School Leaving Certificate (SSLC):** 95.4%
- Relevant Coursework:** Object-Oriented Programming (OOP), Operating Systems (OS), Computer Architecture, Database Management Systems (DBMS)

CERTIFICATIONS

Google Cloud Engineering Certificate

- Certified in Cloud Computing, Compute Engine, DevOps, and Cloud Deployment.
- Infrastructure Automation: Build Infrastructure with Terraform on Google Cloud.

Verified

Python for Data Science Certificate

- Certified in Python for Data Science with 73%.

NPTEL Verified

TECHNICAL SKILLS

- Languages:** C, C++, Python, JavaScript, SQL (PostgreSQL)
- Frameworks & APIs:** Flask
- Emerging Tech:** AI Agents
- Libraries:** NumPy, Pandas
- Tools:** GitHub, Postman
- Core Competencies:** Data Structures & Algorithms, OOP, Operating Systems

ACHIEVEMENTS & HACKATHONS

Barclays Hackathon — ChronoGuard

- Engineered **ChronoGuard**, an intelligent system that automates suspicious activity analysis in financial environments — streamlining detection pipelines and accelerating response timelines for real-world banking threats.

Participant

Smart India Hackathon (SIH) — National Level

- Collaborated with a multidisciplinary team to design and develop a crowd-sourced civic issue reporting system that bridges citizens and local governance through real-time, location-tagged community reporting.

Participant

PROJECTS

Television Management System · DBMS Project

Flask · PostgreSQL · HTML/CSS

- A full-stack TV management platform where admins can track prime-time shows and directors with multiple serials, while viewers can explore show and cast details.

Smart Split Expenser · ADS Project

Flask · JavaScript · C++

- An expense-splitting app that divides amounts equally, by shares, or by percentage — powered by a C++ backend using Tries and Priority Heaps for fast computation.

PERSONAL ATTRIBUTES & INTERESTS

- Creative Pursuits:** Bharatanatyam dancer, travel scrapbooker — collecting mementos from every place visited and decorating them into memory books.
- Communication:** Polished communicator with a flair for storytelling, honed through team-led hackathons and cross-functional project presentations.
- Problem Solving:** Consistent practitioner of algorithmic challenges on LeetCode, always seeking elegant and optimized solutions.
